

## Automatic chucks for alloy wheels clamping

---

automatic antideformation  
radial clamping chuck  
for 5 arm wheels

automatic long jaw stroke  
for soft clamping  
and centrifugal  
force compensation

automatic chuck for wheel  
clamping  
3 radial jaws centering  
bracketing by shaft  
antivibrating system operated  
by centrifugal force

automatic axial bracketing  
chuck for 3-5 arm wheels  
mechanic antivibrating system

no distortion automatic chuck  
with quick change of jaws

automatic chuck  
for alloy wheels clamping  
centering by means  
of 3 radial jaws  
clamping by means  
of 3 axial arms
